

incumbent LECs, to originating access rates.⁶⁰⁹ Bell Atlantic argues that originating rates are not excessive because competitive forces keep them in check.⁶¹⁰ It hypothesizes that, if the Commission required every carrier to set terminating rates at a level no higher than its originating rates, those competitive forces would constrain terminating access rates as well.⁶¹¹ We seek comment on Bell Atlantic's proposal. In order to address the potential that incumbent LECs might charge unreasonable rates for terminating access, the Commission limited price cap incumbent LEC recovery of TIC and common line costs from terminating access rates for a limited period, with the eventual elimination of any recovery of common line and TIC costs through terminating access charges.⁶¹² Furthermore, the Commission declined at that time to link terminating rates to originating rate levels because that approach would not substantially affect terminating access rates where originating access rates were not subject to competitive pressures.⁶¹³ The Commission also found that linking an incumbent LEC's terminating access rates to its originating access rate might reduce the incumbent LEC's incentive to lower its originating access rates.⁶¹⁴ We now seek comment on whether we should link the rates that all local carriers, both CLECs and incumbent LECs, charge for terminating access to originating access rates. We also seek comment on the possible effects on competition between incumbent LECs and CLECs if we were to adopt Bell Atlantic's proposal, but limit it to CLECs.

254. Some commenters have suggested that CLECs are charging excessive originating access rates.⁶¹⁵ In the *Access Reform NPRM*, the Commission stated that as long as IXC's can influence the choice of the access provider, a LEC's ability to charge excessive originating access rates is limited, as IXCs will shift their traffic from that carrier to a competing access provider.⁶¹⁶ In the *Access Reform First Report and Order*, the Commission did not specifically address the issue of CLEC originating access rates. Instead, in the context of incumbent LEC originating access rates, the Commission concluded that new entrants, by purchasing unbundled network elements or providing facilities-based competition, would

⁶⁰⁹ Bell Atlantic Comments at 2. See also Spectranet Access Reform NPRM Comments at 10 (supporting requiring that all LECs (both CLEC and incumbent LECs) price terminating access the same as originating access in each applicable geographic market).

⁶¹⁰ *Id.*

⁶¹¹ *Id.*

⁶¹² *Access Reform First Report and Order*, 12 FCC Rcd at 16136.

⁶¹³ *Id.* at 16137.

⁶¹⁴ *Id.*

⁶¹⁶ *Access Reform NPRM*, 11 FCC Rcd at 21472.

eventually exert downward pressure on originating access rates.⁶¹⁷ Given the complaints by AT&T and others regarding excessive CLEC originating access rates,⁶¹⁸ we seek comment on a marketplace solution that would constrain CLEC originating access rates. In particular, we seek comment on whether any of the terminating access proposals discussed above also may apply to originating access rates. Finally, we seek comment on whether an entirely separate solution is necessary to resolve the issue of originating access charges. If a separate solution is necessary, we solicit comments on what that solution should be.

255. In the case of both originating access associated with "open end" services, such as 800 or 888 calls, and terminating access, the party paying for the call does not choose the access provider. We invite parties to comment on whether, therefore, to treat CLEC "open end" originating minutes the same as CLEC terminating minutes for access charge purposes.⁶¹⁹ Assuming "open end" minutes are treated the same as terminating minutes for access charge purposes, we seek comment on whether the calling party and called party pays proposals set forth above also might work for "open end" minutes, or whether modifications are needed for "open end" minutes. For instance, if we were to adopt a *calling party pays* proposal for originating "open end" minutes, we might require the calling party to pay the portion of the access charges that exceed the benchmark for 800 or 888 calls, because it is the caller, in that instance, that makes the choice of provider for originating access. Finally, we seek comment on whether an entirely separate solution is necessary to resolve the issue of "open end" originating access charges. If a separate solution is necessary, we solicit comments on what that solution should be.

256. We strongly prefer not to intervene in the marketplace, particularly with respect to competitive new entrants, unless intervention is necessary to fulfill our statutory obligation to ensure just and reasonable rates. If market forces are not operating to constrain CLEC access charges, we seek the least intrusive means possible to correct any market failures.

257. Finally, in the *Access Reform NPRM*, the Commission sought comment on any less intrusive methods of ensuring that a CLEC's originating and terminating access charges

⁶¹⁷ *Id.* at 16136.

⁶¹⁸ *AT&T Declaratory Ruling Petition* at 2; *Sprint Reply* at 3; *Cable & Wireless Comments* at 2.

⁶¹⁹ We note that, in response to the *Access Reform NPRM*, TCI argued that originating "open end" minutes do not constitute a bottleneck, and, thus should not be treated as terminating access minutes, because originating "open end" access rates will respond to the market. See *TCI Access Reform NPRM Reply* at 34 (An access provider with high originating access charges would discourage businesses from making open end services available. In such situations, the calling party would lose the benefit of that service and change to an access provider with lower originating access rates.) In making its argument that "open end" minutes should not be treated as terminating minutes for access charge purposes, TCI assumes that terminating access rates are regulated.

are just and reasonable.⁶²⁰ We do so again. We further invite parties to comment on how small business entities, including small incumbent LECs and new entrants, will be affected by the proposals above regarding CLEC access charges.

IX. PROCEDURAL ISSUES

A. Final Regulatory Flexibility Analysis

258. As required by the Regulatory Flexibility Act (RFA),⁶²¹ an Initial Regulatory Flexibility Analysis (IRFA) was incorporated in *Access Reform NPRM*.⁶²² The Commission sought written comments on the proposals in the *Access Reform NPRM*, including the IRFA. The Commission's Final Regulatory Flexibility Analysis (FRFA) in this Order conforms to the RFA, as amended.⁶²³ To the extent that any statement contained in this FRFA is perceived as creating ambiguity with respect to our rules or statements made in preceding sections of this Order, the rules and statements set forth in those preceding sections shall be controlling.

1. Need for and Objectives of this Report and Order

259. This proceeding is being conducted to advance the pro-competitive, de-regulatory national policies embodied in the Telecommunications Act of 1996. The Commission continues the process it began in 1997 with the Access Reform First Report and Order to reform regulation of interstate access charges in order to accelerate the development of competition in all telecommunications markets and to ensure that our own regulations do not unduly interfere with the operation of these markets as competition develops.

2. Summary of Significant Issues Raised by the Public Comments in Response to the IRFA

260. We have already addressed the general concerns raised by Rural Telephone Coalition that this proceeding may "prejudge and prejudice" a later rulemaking for non-price cap LECs, and that the delay in implementing that rulemaking may injure non-price cap

⁶²⁰ *Access Reform NPRM*, 11 FCC Rcd at 21476.

⁶²¹ See 5 U.S.C. § 603.

⁶²² Access Charge Reform, CC Docket No. 96-262, Notice of Proposed Rulemaking, 11 FCC Rcd 21354 (1996) (*Access Reform NPRM*).

⁶²³ See 5 U.S.C. § 604. The Regulatory Flexibility Act, 5 U.S.C. § 601 *et. seq.*, was amended by the "Small Business Regulatory Enforcement Fairness Act of 1996" (SBREFA), which was enacted as Title II of the Contract With America Advancement Act of 1996, Pub.L. No. 104-121, 110 Stat. 847 (1996) (CWAAA).

LECs.⁶²⁴ Otherwise, the comments filed do not address the specific issues contained in this Order.⁶²⁵

3. Description and Estimate of the Number of Small Entities to which the Rules Will Apply:

261. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted.⁶²⁶ The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction."⁶²⁷ In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act.⁶²⁸ A small business concern is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).⁶²⁹ The Small Business Administration has defined a small business for Standard Industrial Classification (SIC) category 4813 (Telephone Communications, Except Radiotelephone) to be a small entity that has no more than 1500 employees.⁶³⁰

Total Number of Telephone Companies Affected:

262. We have included small incumbent LECs in this present RFA analysis. As noted above, a "small business" under the RFA is one that, *inter alia*, meets the pertinent small business size standard (*e.g.*, a telephone communications business having 1,500 or fewer employees), and "is not dominant in its field of operation."⁶³¹ The SBA's Office of Advocacy contends that, for RFA purposes, small incumbent LECs are not dominant in their

⁶²⁴ See *Access Reform First Report and Order*, 12 FCC Rcd at 16161-62.

⁶²⁵ See USTA Comments at 16-17, 56-57; SNET Comments at 29; Rural Telephone Coalition Comments at 2-3, 10-13, 15; Frontier Comments at 5-6.

⁶²⁶ 5 U.S.C. § 603(b)(3).

⁶²⁷ *Id.* § 601(6).

⁶²⁸ 5 U.S.C. § 601(3) (incorporating by reference the definition of "small business concern" in 15 U.S.C. § 632). Pursuant to the RFA, the statutory definition of a small business applies "unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register." 5 U.S.C. § 601(3).

⁶²⁹ Small Business Act, 15 U.S.C. § 632 (1996).

⁶³⁰ 13 C.F.R. § 121.201.

⁶³¹ 5 U.S.C. § 601(3).

field of operation because any such dominance is not "national" in scope.⁶³² We have therefore included small incumbent LECs in this RFA analysis, although we emphasize that this RFA action has no effect on FCC analyses and determinations in other, non-RFA contexts.

263. *Price Cap Local Exchange Carriers.* The rulemaking contained in this Order applies only to price cap LECs. We do not have data specifying the number of these carriers that are either dominant in their field of operations, are not independently owned and operated, or have more than 1,500 employees, and thus are unable at this time to estimate with greater precision the number of price cap LECs that would qualify as small business concerns under the SBA's definition. However, there are only 13 price cap LECs. Consequently, we estimate that significantly fewer than 13 providers of local exchange service are small entities or small price cap LECs that may be affected by these proposals.

4. Summary Analysis of the Projected Reporting, Recordkeeping, and Other Compliance Requirements

264. In this Report and Order, we adopt changes in pricing flexibility to price cap LECs in the form of streamlined introduction of new services, geographic deaveraging of rates for services in the trunking basket, and removal of interexchange services from price cap regulation. These changes will affect all price cap LECs, including small price cap LECs, and will require small price cap LECs to make one or more tariff filings should they desire to obtain the additional pricing flexibility, which will involve the usage of legal skills, and possibly accounting, economic, and financial skills.

5. Burdens on Small Entities, and Significant Alternatives Considered and Rejected

265. In Sections III, IV, and V, we adopt forms of regulatory relief for price cap LECs that can be granted under current market conditions and do not require a further competitive showing. Price cap LECs each will have to file at least one tariff to implement this relief, but the administrative burdens they will face in future filings will diminish as a result. In Section VI, we grant additional pricing flexibility to price cap LECs that make "competitive showings," or satisfy "triggers," to demonstrate that market conditions in

⁶³² Letter from Jere W. Glover, Chief Counsel for Advocacy, SBA, to William E. Kennard, Chairman, FCC (May 27, 1999). The Small Business Act contains a definition of "small business concern," which the RFA incorporates into its own definition of "small business." See 15 U.S.C. § 632(a) (Small Business Act); 5 U.S.C. § 601(3) (RFA). SBA regulations interpret "small business concern" to include the concept of dominance on a national basis. 13 C.F.R. § 121.102(b). Since 1996, out of an abundance of caution, the Commission has included small incumbent LECs in its regulatory flexibility analyses. *Implementation of the Local Competition Provisions of the Telecommunications Act of 1996*, CC Docket, 96-98, First Report and Order, 11 FCC Rcd 15499, 16144-45 (1996).

particular areas warrant the relief at issue. In order to minimize the administrative burdens on price cap LECs, we base our triggering mechanisms on objectively measurable criteria.

266. We considered and rejected alternative triggers and granting a different amount of pricing flexibility. In setting the triggers and relief in the manner we did, we attempted to balance the interests of price cap LECs in being able to gain regulatory relief, with our interest in protecting ratepayers from unreasonable rate levels and new entrants from anti-competitive actions.

6. Report to Congress

267. The Commission will send a copy of this Report and Order, including this FRFA, in a report to be sent to Congress pursuant to the Small Business Regulatory Enforcement Fairness Act of 1996.⁶³³ In addition, the Commission will send a copy of this Report and Order, including FRFA, to the Chief Counsel for Advocacy of the Small Business Administration. A copy of this Report and Order and FRFA (or summaries thereof) will also be published in the Federal Register.⁶³⁴

B. Initial Regulatory Flexibility Act Analysis

268. As required by the Regulatory Flexibility Act (RFA),⁶³⁵ the Commission has prepared this present Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on small entities by the policies and rules proposed in this Further Notice of Proposed Rulemaking (Further Notice). Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the Further Notice provided below in Section IX.D. The Office of Public Affairs will send a copy of the Further Notice, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration.⁶³⁶ In addition, the Further Notice and IRFA (or summaries thereof) will be published in the Federal Register.⁶³⁷

269. Need for, and objectives of, the proposed rules. Consistent with the Telecommunications Act of 1996, the Commission has revised its interstate access charges to

⁶³³ 5 U.S.C. § 801(a)(1)(A).

⁶³⁴ See 5 U.S.C. § 604(b).

⁶³⁵ 5 U.S.C. § 603. The RFA, see 5 U.S.C. § 601 *et seq.*, has been amended by the Contract With America Advancement Act of 1996, Pub. L. No. 104-21, 110 Stat. 847 (1996) (CWAAA). Title II of the CWAAA is the "Small Business Regulatory Enforcement Fairness Act of 1996" (SBREFA).

⁶³⁶ 5 U.S.C. § 603(a).

⁶³⁷ See *id.*

facilitate competition in the provision of interstate access services. These proposals attempt to effect additional regulations reflective of the competitive marketplace. In Sections VIII.A and VIII.B we seek to establish additional pricing flexibilities for price cap incumbent LECs, while at the same time limit use of those flexibilities to deter entry, to drive existing competitors from the market, or to increase rates for those customers that lack competitive alternatives. In Section VIII.C, we seek to modify the common line rate structure should we determine that a capacity-based rate structure reflects the manner in which price cap LECs incur their costs better than the current traffic-sensitive rate structure. In Section VIII.D, we seek to refine several of our price cap rules to better reflect the manner in which price cap incumbent LECs costs are incurred. In Section VIII.E, we seek to prevent CLECs from charging unreasonable rates for terminating access service.

270. Legal Basis. The proposed action is supported by Sections 4(i), 4(j), 201-205, 208, 251, 252, 253 and 403 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 154(j), 201, 205, 208, 251, 252, 253, 403.

271. Description, potential impact and number of small entities affected. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted.⁶³⁸ The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction."⁶³⁹ In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act.⁶⁴⁰ A small business concern is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).⁶⁴¹ The Small Business Administration has defined a small business for Standard Industrial Classification (SIC) category 4813 (Telephone Communications, Except Radiotelephone) to be a small entity that has no more than 1500 employees.⁶⁴²

⁶³⁸ 5 U.S.C. § 603(b)(3).

⁶³⁹ *Id.* § 601(6).

⁶⁴⁰ 5 U.S.C. § 601(3) (incorporating by reference the definition of "small business concern" in 15 U.S.C. § 632). Pursuant to the RFA, the statutory definition of a small business applies "unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register." 5 U.S.C. § 601(3).

⁶⁴¹ Small Business Act, 15 U.S.C. § 632 (1996).

⁶⁴² 13 C.F.R. § 121.201.

Total Number of Telephone Companies Affected:

272. We have included small incumbent LECs in this present RFA analysis. As noted above, a "small business" under the RFA is one that, *inter alia*, meets the pertinent small business size standard (*e.g.*, a telephone communications business having 1,500 or fewer employees), and "is not dominant in its field of operation."⁶⁴³ The SBA's Office of Advocacy contends that, for RFA purposes, small incumbent LECs are not dominant in their field of operation because any such dominance is not "national" in scope.⁶⁴⁴ We have therefore included small incumbent LECs in this RFA analysis, although we emphasize that this RFA action has no effect on FCC analyses and determinations in other, non-RFA contexts.

273. *Price Cap Local Exchange Carriers.* The proposals in Section VIII.A-D apply only to price cap LECs. We do not have data specifying the number of these carriers that are either dominant in their field of operations, are not independently owned and operated, or have more than 1,500 employees, and thus are unable at this time to estimate with greater precision the number of price cap LECs that would qualify as small business concerns under the SBA's definition. However, there are only 13 price cap LECs. Consequently, we estimate that significantly fewer than 13 providers of local exchange service are small entities or small price cap LECs that may be affected by these proposals.

274. *Competitive Local Exchange Carriers.* The proposals in Section VIII.E apply only to competitive LECs. Neither the Commission nor the Small Business Administration has developed a definition of small providers of local exchange service. The closest applicable definition under Small Business Administration rules is for telephone telecommunications companies other than radiotelephone (wireless) companies.⁶⁴⁵ The most reliable source of information regarding the number of competitive LECs nationwide of which we are aware appears to be the data that we collect annually in connection with the Telecommunications Relay Service (TRS). According to our most recent data, 129 companies reported that they were engaged in the provision of either competitive access provider

⁶⁴³ 5 U.S.C. § 601(3).

⁶⁴⁴ Letter from Jere W. Glover, Chief Counsel for Advocacy, SBA, to William E. Kennard, Chairman, FCC (May 27, 1999). The Small Business Act contains a definition of "small business concern," which the RFA incorporates into its own definition of "small business." See 15 U.S.C. § 632(a) (Small Business Act); 5 U.S.C. § 601(3) (RFA). SBA regulations interpret "small business concern" to include the concept of dominance on a national basis. 13 C.F.R. § 121.102(b). Since 1996, out of an abundance of caution, the Commission has included small incumbent LECs in its regulatory flexibility analyses. *Implementation of the Local Competition Provisions of the Telecommunications Act of 1996*, CC Docket, 96-98, First Report and Order, 11 FCC Rcd 15499, 16144-45 (1996).

⁶⁴⁵ Standard Industrial Classification (SIC) Code 4813.

services or competitive local exchange carrier services.⁶⁴⁶ We do not have data specifying the number of these carriers that are either dominant in their field of operations, are not independently owned and operated, or have more than 1,500 employees, and thus are unable at this time to estimate with greater precision the number of competitive LECs that would qualify as small business concerns under the SBA's definition. Consequently, we estimate that fewer than 129 providers of local exchange service are small entities or small competitive LECs that may be affected by these proposals.

275. Reporting, record keeping and other compliance requirements. We expect that, on balance, the proposals in this Further Notice will slightly increase price cap LECs' administrative burdens. The proposals in Section VIII.A would require at least one additional tariff filing, and may require additional showings. The proposals in Section VIII.B will require a price cap LEC, to the extent that it chooses to avail itself of the additional flexibility, to file a petition demonstrating that it has met the triggers, and make an initial tariff filing. We expect that the proposals in Sections VIII.C and VIII.D would establish new methodologies that price cap LECs would need to apply in their tariff filings, but otherwise should not affect their administrative burdens.

276. We expect that the proposals in Section VIII.E will have no effect on the administrative burdens of competitive LECs, because they would have no additional filing requirement. They would only be required to respond to complaints.

277. Steps taken to minimize significant economic impact on small entities, and significant alternatives considered. In this Notice, we sought comment on how a number of proposals would affect small entities. We believe that overall, these proposals should have a positive economic impact on small price cap LECs. The proposals in Sections VIII.A, VIII.B, and VIII.C should enable small price cap LECs to price their regulated services in a manner that is more reflective of the underlying costs of these services. In Sections VIII.C, we have also sought comment on whether small interexchange carriers would be artificially disadvantaged if we adopt a capacity-based local switching rate structure. The proposals in Sections VIII.D and VIII.E should not have a significant economic impact on small entities. We seek comment on these proposals and urge that parties support their comments with specific evidence and analysis.

278. Federal rules which overlap, duplicate or conflict with this proposal. None.

C. Paperwork Reduction Act

279. On April 1, 1997, the Office of Management and Budget (OMB) approved all of our proposed information collection requirements in accordance with the Paperwork

⁶⁴⁶ FCC, Common Carrier Bureau, *Carrier Locator: Interstate Service Providers*, Figure 1 (number of carriers paying into the TRS Fund by type of carrier) (Jan. 1999).

Reduction Act.⁶⁴⁷ The OMB made one recommendation, suggesting that we try "to minimize the number of new filings that firms must create in order to be compliant with the rules adopted" We have carefully considered the recommendation of OMB, and in the course of preparing this Order, we have decided to modify several of the collection requirements proposed in the *Access Reform NPRM*.⁶⁴⁸ This Order has greatly reduced the number of filings a price cap LEC will have to submit to receive pricing flexibility. In addition, many of the filings should take less time to make than was originally proposed. For example, we estimate that based on the competitive triggers we adopted, it should only take five hours each to make two Phase II showings per MSA for all special access and dedicated transport services, whereas the original filing to OMB estimated that each Phase II showing would take approximately 300 hours.

280. The Further Notice of Proposed Rulemaking contains either a proposed or modified information collection. As part of its continuing effort to reduce paperwork burdens, we invite the general public and the OMB to take this opportunity to comment on the information collections contained in the Further Notice of Proposed Rulemaking, as required by the Paperwork Reduction Act of 1995, 44 U.S.C. §§ 3501-3520. Public and agency comments are due at the same time as other comments on the Further Notice of Proposed Rulemaking; OMB comments are due 60 days from date of publication of the Further Notice of Proposed Rulemaking in the Federal Register. Comments should address: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

D. Filing Comments

281. Pursuant to Sections 1.415 and 1.419 of the Commission's rules, 47 C.F.R. §§ 1.415, 1.419, interested parties may file comments on or before October 29, 1999, and reply comments on or before November 29, 1999. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. *See Electronic of Documents in Rulemaking Proceedings*, 63 Fed. Reg. 24,121 (1998).

282. Comments filed through the ECFS can be sent as an electronic file via the Internet to <<http://www.fcc.gov/e-file/ecfs.html>>. Generally, only one copy of an electronic submission must be filed. If multiple docket or rulemaking numbers appears in the caption of

⁶⁴⁷ *Notice of Office Management and Budget Action*, OMB No 3060-0760 (Apr. 1, 1997).

⁶⁴⁸ *Access Charge Reform*, CC Docket No. 96-262, Notice of Proposed Rulemaking, 11 FCC Rcd 21354 (1996) (*Access Reform NPRM*).

this proceeding, however, commenters must transmit one electronic copy of the comments to each docket or rulemaking number referenced in the caption. In completing the transmittal screen, commenters should include their full name, Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to ecfs@fcc.gov, and should include the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply.

283. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking number appear in the caption of this proceeding, commenters must submit two additional copies for each additional docket or rulemaking number. All filings must be sent to the Commission's Secretary, Magalie Roman Salas, Office of the Secretary, Federal Communications Commission, 445 Twelfth St., S.W., Room TW-A325, Washington, DC 20554.

X. ORDERING CLAUSES

284. Accordingly, IT IS ORDERED, pursuant to sections 1, 4(i), 4(j), 201-205, 303(r), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 154(i), 154(j), 201-205, 303(r), 403, and section 553 of Title 5, United States Code, that revisions to Parts 1, 61, and 69 of the Commission's rules, 47 C.F.R. Parts 1, 61, 69, ARE ADOPTED as set forth in Appendix B.

285. IT IS FURTHER ORDERED that the rule revisions adopted in this Order will be effective 30 days after publication of this Order in the Federal Register. The collections of information contained within are contingent upon approval by the Office of Management and Budget.

286. IT IS FURTHER ORDERED that, pursuant to section 10(c) of the Communications Act of 1934, 47 U.S.C. § 160(c), the period for review by the Commission of the petition for forbearance filed by U S West Communications, Inc., CC Docket No. 98-157, IS EXTENDED by 90 days.

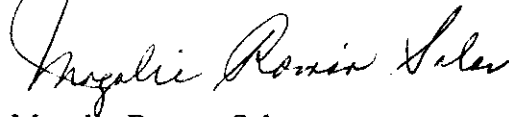

287. IT IS FURTHER ORDERED that the petition for declaratory ruling filed by AT&T, CCB/CPD File No. 98-63, IS DENIED.

288. IT IS FURTHER ORDERED that NOTICE IS HEREBY GIVEN OF the rulemaking described above and that COMMENT IS SOUGHT on these issues.

289. IT IS FURTHER ORDERED that the Commission's Office of Public Affairs, Reference Operations Division, SHALL SEND a copy of the Further Notice of Proposed

Rulemaking, including the Regulatory Flexibility Act analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

FEDERAL COMMUNICATIONS COMMISSION

b. Replies

1. Ameritech Operating Companies (Ameritech)

(A) That there is a high probability the tariff would be found unlawful after investigation;

(B) That any unreasonable rate would not be corrected in a subsequent filing;

(C) That irreparable injury will result if the tariff filing is not suspended; and

(D) That the suspension would not otherwise be contrary to the public interest.

5. Add § 1.774 to read as follows:

§ 1.774 Pricing flexibility

(a) Petitions.

(1) A petition seeking pricing flexibility for specific services pursuant to Part 69, Subpart H, of this chapter, with respect to a metropolitan statistical area (MSA), as defined in Section 22.909(a) of this chapter, or the non-MSA parts of a study area, must show that the price cap LEC has met the relevant thresholds set forth in Part 69, Subpart H, of this chapter.

(2) The petition must make a separate showing for each MSA for which the petitioner seeks pricing flexibility, and for the portion of the study area that falls outside any MSA.

(3) Petitions seeking pricing flexibility for services described in Sections 69.709(a) and 69.711(a) of this chapter must include:

(i) the total number of wire centers in the relevant MSA or non-MSA parts of a study area, as described in Section 69.707 of this chapter;

(ii) the number and location of the wire centers in which competitors have collocated in the relevant MSA or non-MSA parts of a study area, as described in Section 69.707 of this chapter;

(iii) in each wire center on which the price cap LEC bases its petition, the name of at least one collocator that uses transport facilities owned by a provider other than the price cap LEC to transport traffic from that wire center; and

(iv)(A) the percentage of the wire centers in the relevant MSA or non-MSA area, as described in Section 69.707 of this chapter, in which competitors have collocated and use transport facilities owned by a provider other than the price cap LEC to transport traffic from that wire center; or

APPENDIX B

AMENDMENTS TO THE CODE OF FEDERAL REGULATIONS

PART 0 -- COMMISSION ORGANIZATION

1. The authority citation continues to read as follows:

Authority: Sec. 5, 48 Stat. 1068, as amended; 47 U.S.C. 155.

2. Revise § 0.291 by adding paragraph (i) to read as follows:

§ 0.291 Authority delegated.

* * * * *

(i) *Authority concerning petitions for pricing flexibility.*

(1) The Chief, Common Carrier Bureau, shall have authority to act on petitions filed pursuant to Part 69, Subpart H, of this chapter for pricing flexibility involving special access and dedicated transport services. This authority is not subject to the limitation set forth in paragraph (a)(2) of this section.

(2) The Chief, Common Carrier Bureau, shall not have authority to act on petitions filed pursuant to Part 69, Subpart H, of this chapter for pricing flexibility involving common line and traffic sensitive services.

PART 1 -- PRACTICE AND PROCEDURE

3. The authority citation continues to read as follows:

Authority: 15 U.S.C. 79 *et seq.*, 47 U.S.C. 151, 154(i), 154(j), 155, 225, and 303(r).

4. Revise § 1.773 by adding paragraph (a)(1)(v), to read as follows:

(v) For the purposes of this section, any tariff filing by a price cap LEC filed pursuant to the requirements of Section 61.42(d)(4)(ii) of this chapter will be considered *prima facie* lawful, and will not be suspended by the Commission unless the petition requesting suspension shows each of the following:

(2)(i) Interested parties filing oppositions or comments in response to a petition for pricing flexibility may file those comments through ETFS.

(ii) Any interested party electing to file an opposition or comment in response to a pricing flexibility petition through a method other than ETFS must file an original and four copies of each opposition or comment with the Commission, as follows: the original and three copies of each pleading shall be filed with the Secretary, FCC, Room CY-A257, 445 Twelfth St. S.W., Washington, D.C., 20554; one copy must be delivered directly to the Commission's copy contractor, International Transcription Service, Inc., 1231 Twentieth St. N.W., Washington, D.C. 20036. Additional, separate copies shall be served simultaneously upon the Chief, Common Carrier Bureau; the Chief, Competitive Pricing Division; and the Chief, Tariff and Pricing Analysis Branch of the Competitive Pricing Division.

(iii) In addition, oppositions and comments shall be served either personally or via facsimile on the petitioner. If an opposition or comment is served via facsimile, a copy of the opposition or comment must be sent to the petitioner via first class mail on the same day as the facsimile transmission.

(3) Replies shall be filed with the Commission through ETFS. In addition, petitioners choosing to file a reply must serve a copy on each party filing an opposition or comment, either personally or via facsimile. If a reply is served via facsimile, a copy of the reply must be sent to the recipient of that reply via first class mail on the same day as the facsimile transmission.

(f) *Disposition.*

(1) A petition for pricing flexibility pertaining to special access and dedicated transport services shall be deemed granted unless the Chief, Common Carrier Bureau, denies the petition no later than 90 days after the close of the pleading cycle. The period for filing applications for review begins the day the Bureau grants or denies the petition, or the day that the petition is deemed denied. Time shall be computed pursuant to Section 1.4 of this part.

(2) A petition for pricing flexibility pertaining to common-line and traffic-sensitive services shall be deemed granted unless the Commission denies the petition no later than five months after the close of the pleading cycle. Time shall be computed pursuant to Section 1.4 of this part.

PART 61 -- TARIFFS

6. The authority citation continues to read as follows:

(B) the percentage of total base period revenues generated by the services at issue in the petition that are attributable to wire centers in the relevant MSA or non-MSA area, as described in Section 69.707 of this chapter, in which competitors have collocated and use transport facilities owned by a provider other than the price cap LEC to transport traffic from that wire center.

(4) Petitions seeking pricing flexibility for services described in Section 69.713(a) of this chapter must make a showing sufficient to meet the relevant requirements of Section 69.713.

(b) *Confidential treatment* A price cap LEC wishing to request confidential treatment of information contained in a pricing flexibility petition should demonstrate, by a preponderance of the evidence, that the information should be withheld from public inspection in accordance with the requirements of Section 0.459 of this chapter.

(c) *Oppositions.* Any interested party may file comments or oppositions to a petition for pricing flexibility. Comments and oppositions shall be filed no later than 15 days after the petition is filed. Time shall be computed pursuant to Section 1.4 of this part.

(d) *Replies.* The petitioner may file a reply to any oppositions filed in response to its petition for pricing flexibility. Replies shall be filed no later than 10 days after comments are filed. Time shall be computed pursuant to Section 1.4 of this part.

(e) *Copies, service.*

(1)(i) Any price cap LEC filing a petition for pricing flexibility must submit its petition pursuant to the Commission's Electronic Tariff Filing System (ETFS), following the procedures set forth in Section 61.14(a) of this chapter.

(ii) The price cap LEC must provide to each party upon which the price cap LEC relies to meet its obligations under paragraph (a)(3)(iii) of this section, the information it provides about that party in its petition, even if the price cap LEC requests that the information be kept confidential under paragraph (b) of this section.

(A) The price cap LEC must certify in its pricing flexibility petition that it has made such information available to the party.

(B) The price cap LEC may provide data to the party in redacted form, revealing only that information to the party that relates to the party.

(C) The price cap LEC must provide to the Commission copies of the information it provides to such parties.

9. Amend § 61.45 by revising paragraph (d)(1)(vii), to read as follows:

§ 61.45 Adjustments to the PCI for local exchange carriers.

* * * * *

(d) * * *

(1) * * *

(vii) Retargeting the PCI to the level specified by the Commission for carriers whose base year earnings are below the level of the lower adjustment mark, subject to the limitation in Section 69.731 of this chapter.

10. Amend § 61.46 to add paragraph (i) to read as follows:

§ 61.46 Adjustments to the API.

* * * * *

(i) In no case shall a price cap local exchange carrier include data associated with services offered pursuant to contract tariff in the calculations required by this section.

11. Amend § 61.47 to revise paragraphs (a) and (e)(1), and to add paragraphs (f) and (k), to read as follows:

§ 61.47 Adjustments to the SBI; pricing bands.

(a) In connection with any price cap tariff filing proposing changes in the rates of services in service categories, subcategories, or density zones, the carrier must calculate an SBI value for each affected service category, subcategory, or density zone pursuant to the following methodology: * * *

* * * * *

(e) Pricing bands shall be established each tariff year for each service category and subcategory within a basket. Each band shall limit the pricing flexibility of the service category, subcategory, as reflected in the SBI, to an annual increase of a specified percent listed in this paragraph below, relative to the percentage change in the PCI for that basket, measured from the levels in effect on the last day of the preceding tariff year. For local

Authority: Secs. 1, 4(i), 4(j), 201-205, and 403 of the Communications Act of 1934, as amended; 47 U.S.C. 151, 154(i), 154(j), 201-205, and 403, unless otherwise noted.

7. Amend § 61.3 by revising paragraph (m) and adding paragraphs (nn), (oo), and (pp), to read as follows:

§ 61.3 Definitions.

* * * * *

(m) *Contract-based Tariff*. A tariff based on a service contract entered into between a non-dominant carrier and a customer, or between a customer and a price cap local exchange carrier which has obtained permission to offer contract-based tariff services pursuant to Part 69, Subpart H, of this chapter.

* * * * *

(nn) *Corridor service*. "Corridor service" refers to interLATA services offered in the "limited corridors" established by the District Court in *United States v. Western Electric Co., Inc.*, 569 F. Supp. 1057, 1107 (D.D.C. 1983).

(oo) *Toll dialing parity*. "Toll dialing parity" exists when there is dialing parity, as defined in Section 51.5 of this chapter, for toll services.

(pp) *Loop-based services*. Loop-based services are services that employ Subcategory 1.3 facilities, as defined in Section 36.154 of this chapter.

8. Amend § 61.42 by redesignating paragraph (d)(4) as (d)(4)(i), and adding paragraph (d)(4)(ii), to read as follows:

§ 61.42 Price cap baskets and service categories.

* * * * *

(d) * * *

(4) * * *

(ii) If a price cap carrier has implemented interLATA and intraLATA toll dialing parity everywhere it provides local exchange services at the holding company level, that price cap carrier may file a tariff revision to remove corridor and interstate intraLATA toll services from its interexchange basket.

(2) Each tariff filing submitted by a price cap LEC that introduces a new loop-based service, as defined in Section 61.3(pp) of this part -- including a restructured unbundled basic service element (BSE), as defined in Section 69.2(mm) of this chapter, that constitutes a new loop-based service -- that is or will later be included in a basket, must be accompanied by cost data sufficient to establish that the new loop-based service or unbundled BSE will not recover more than a just and reasonable portion of the carrier's overhead costs.

(3) A price cap LEC may submit without cost data any tariff filings that introduce new services, other than loop-based services.

(4) A price cap LEC that has removed its corridor or interstate intraLATA toll services from its interexchange basket pursuant to Section 61.42(d)(4)(ii) of this part, may submit its tariff filings for corridor or interstate intraLATA toll services without cost data.

(g) Each tariff filing submitted by a local exchange carrier subject to price cap regulation that introduces a new loop-based service or a restructured unbundled basic service element (BSE), as defined in Section 69.2(mm) of this chapter, that is or will later be included in a basket, or that introduces or changes the rates for connection charge subelements for expanded interconnection, as defined in Section 69.121 of this chapter, must also be accompanied by:

* * *

13. Add § 61.55 to read as follows:

§ 61.55 Contract-based tariffs.

(a) This section shall apply to price cap LECs permitted to offer contract-based tariffs under Section 69.727(a) of this chapter.

(b) Composition of contract-based tariffs shall comply with Sections 61.54(b) through (i) of this part.

(c) Contract-based tariffs shall include the following:

- (1) The term of contract, including any renewal options;
- (2) A brief description of each of the services provided under the contract;
- (3) Minimum volume commitments for each service;

exchange carriers subject to price cap regulation as that term is defined in Section 61.3(x) of this part, there shall be no lower pricing band for any service category or subcategory.

(1) Five percent:

- (i) Local switching (traffic sensitive basket)
- (ii) Information (traffic sensitive basket)
- (iii) Database Access services (traffic sensitive basket)
- (iv) 800 Database Vertical Services subservice (traffic sensitive basket)
- (v) Billing Name and Address (traffic sensitive basket)
- (vi) Local switching trunk ports (traffic sensitive basket)
- (vii) Signalling Transfer Point Port Termination (traffic sensitive basket)
- (viii) Voice grade (trunking basket)
- (ix) Audio/Video (trunking basket)
- (x) Total High Capacity (trunking basket)
- (xi) DS1 subservice (trunking basket)
- (xii) DS3 subservice (trunking basket)
- (xiii) Wideband (trunking basket)

* * *

(f) A local exchange carrier subject to price cap regulation may establish density¹ zones pursuant to the requirements set forth in Section 69.123 of this chapter, for any service in the trunking basket, other than the interconnection charge set forth in Section 69.124 of this chapter. The pricing flexibility of each zone shall be limited to an annual increase of 15 percent, relative to the percentage change in the PCI for that basket, measured from the levels in effect on the last day of the preceding tariff year. There shall be no lower pricing band for any density zone.

* * * * *

(k) In no case shall a price cap local exchange carrier include data associated with services offered pursuant to contract tariff in the calculations required by this section.

12. In § 61.49, revise paragraphs (f)(2) and (g), and add (f)(3) and (f)(4), to read as follows:

§ 61.49 Supporting information to be submitted with letters of transmittal for tariffs of carriers subject to price cap regulation.

* * * * *

(f) * * *

(7) Such a tariff shall not contain charges for any access elements that are disaggregated or deaveraged within a study area that is used for purposes of jurisdictional separations, except as otherwise provided in this chapter.

17. Amend § 69.4 by revising paragraph (g) and adding paragraph (i), to read as follows:

§ 69.4 Charges to be filed.

* * * * *

(g) Local exchange carriers subject to price cap regulation, as that term is defined in Section 61.3(x) of this chapter, may establish appropriate rate elements for a new service, within the meaning of Section 61.3(t) of this chapter, in any tariff filing with a scheduled effective date after [insert date 30 days after publication in the Federal Register].

* * * * *

(i) Paragraphs (b) and (h) of this section are not applicable to a price cap local exchange carrier to the extent that it has been granted the pricing flexibility in Section 69.727(b)(1) of this part.

18. In § 69.110, revise paragraph (e) to read as follows:

§ 69.110 Entrance facilities.

* * * * *

(e) Except as provided in paragraphs (f), (g), and (h) of this section, and Subpart H of this chapter, telephone companies shall not offer entrance facilities based on term discounts or volume discounts for multiple DS3s or any other service with higher volume than DS3.

19. Amend § 69.123 by revising paragraphs (a), (b), (e)(2), and (f)(1), to read as follows:

§ 69.123 Density pricing zones.

(a)(1) Incumbent local exchange carriers not subject to price cap regulation may establish a reasonable number of density pricing zones within each study area that is used for purposes of jurisdictional separations, in which at least one interconnector has taken the subelement of connection charges for expanded interconnection described in Section 69.121(a)(1) of this subpart.

(4) The contract price for each service or services at the volume levels committed to by the customers;

(5) A general description of any volume discounts built into the contract rate structure; and

(6) A general description of other classifications, practices, and regulations affecting the contract rate.

14. Amend § 61.58 to revise paragraphs (b) and (c), and add (d), to read as follows:

§ 61.58 Notice requirements.

* * * * *

(b) Tariffs for new services filed by price cap local exchange carriers shall be filed on at least one day's notice.

(c) Contract-based tariffs filed by price cap local exchange carriers pursuant to Sections 69.727(a) of this chapter shall be filed on at least one day's notice.

(d)(1) A local exchange carrier that is filing a tariff revision to remove its corridor or interstate intraLATA toll services from its interexchange basket pursuant to Section 61.42(d)(4)(ii) of this part shall submit such filing on at least fifteen days' notice.

(2) A local exchange carrier that has removed its corridor and interstate intraLATA toll services from its interexchange basket pursuant to Section 61.42(d)(4)(ii) of this part shall file subsequent tariff filings for corridor or interstate intraLATA toll services on at least one day's notice.

PART 69 -- ACCESS CHARGES

15. The authority citation continues to read as follows:

Authority: 47 U.S.C. 154, 201, 202, 203, 205, 218, 220, 254, 403.

16. Amend § 69.4 by revising subparagraph (e)(7) to read as follows:

§ 69.3 Filing of Access Service Tariffs

* * * * *

20. Revise Part 69 by adding Subpart H to read as follows:

Subpart H -- Pricing Flexibility

§ 69.701 Application of rules in this subpart.

The rules in this subpart apply to all incumbent LECs subject to price cap regulation, as defined in Section 61.3(x) of this chapter, seeking pricing flexibility on the basis of the development of competition in parts of its service area.

§ 69.703 Definitions.

For purposes of this subpart:

(a) *Channel terminations.*

(1) A channel termination between an IXC POP and a serving wire center is a dedicated channel connecting an IXC POP and a serving wire center, offered for purposes of carrying special access traffic.

(2) A channel termination between a LEC end office and a customer premises is a dedicated channel connecting a LEC end office and a customer premises, offered for purposes of carrying special access traffic.

(b) *Metropolitan Statistical Area (MSA).* This term shall have the definition provided in Section 22.909(a) of this chapter.

(c) *Interexchange Carrier Point of Presence (IXC POP).* The point of interconnection between an interexchange carrier's network and a local exchange carrier's network.

(d) *Wire center.* For purposes of this subpart, the term "wire center" shall refer to any location at which an incumbent LEC is required to provide expanded interconnection for special access pursuant to Section 64.1401(a) of this chapter, and any location at which an incumbent LEC is required to provide expanded interconnection for switched transport pursuant to Section 64.1401(b)(1) of this chapter.

(e) *Study area.* A common carrier's entire service area within a state.

§ 69.705 Procedure.

(2) Such a system of pricing zones shall be designed to reasonably reflect cost-related characteristics, such as the density of total interstate traffic in central offices located in the respective zones.

(3) Non-price cap incumbent local exchange carriers may establish only one set of density pricing zones within each study area, to be used for the pricing of both special and switched access pursuant to paragraphs (c) and (d) of this section.

(b)(1) Incumbent local exchange carriers subject to price cap regulation may establish any number of density zones within a study area that is used for purposes of jurisdictional separations, provided that each zone, except the highest-cost zone, accounts for at least 15 percent of that carrier's trunking basket revenues within that study area, calculated pursuant to the methodology set forth in Section 69.725 of this part.

(2) Price cap incumbent local exchange carriers may establish only one set of density pricing zones within each study area, to be used for the pricing of all services within the trunking basket for which zone density pricing is permitted.

(3) An access service subelement for which zone density pricing is permitted shall be deemed to be offered in the zone that contains the telephone company location from which the service is provided.

(4) An access service subelement for which zone density pricing is permitted which is provided to a customer between telephone company locations shall be deemed to be offered in the highest priced zone that contains one of the locations between which the service is offered.

* * *

(e) * * *

(2) Notwithstanding Section 69.3(e)(7) of this part, incumbent local exchange carriers subject to price cap regulation may charge different rates for services in different zones pursuant to Section 61.47(f) of this chapter, provided that the charges for any such service are not deaveraged within any such zone.

(f)(1) An incumbent local exchange carrier that establishes density pricing zones under this section must reallocate additional amounts recovered under the interconnection charge prescribed in Section 69.124 of this subpart to facilities-based transport rates, to reflect the higher costs of serving lower density areas. Each incumbent local exchange carrier must reallocate costs from the interexchange charge each time it increases the ratio between the prices in its lowest-cost zone and any other zone in that study area.

* * * * *

(4) Special access services, as described in Section 69.114 of this part, other than channel terminations as defined in Section 69.703(a)(2) of this subpart.

(b) *Phase I Triggers.* To obtain Phase I pricing flexibility, as specified in Section 69.727(a) of this subpart, for the services described in paragraph (a) of this section, a price cap LEC must show that, in the relevant area as described in Section 69.707 of this subpart, competitors unaffiliated with the price cap LEC have collocated:

(1) in fifteen percent of the petitioner's wire centers, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center; or

(2) in wire centers accounting for 30 percent of the petitioner's revenues from dedicated transport and special access services other than channel terminations between LEC end offices and customer premises, determined as specified in Section 69.725 of this subpart, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center.

(c) *Phase II Triggers.* To obtain Phase II pricing flexibility, as specified in Section 69.727(b) of this subpart, for the services described in paragraph (a) of this section, a price cap LEC must show that, in the relevant area as described in Section 69.707 of this subpart, competitors unaffiliated with the price cap LEC have collocated:

(1) in 50 percent of the petitioner's wire centers, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center; or

(2) in wire centers accounting for 65 percent of the petitioner's revenues from dedicated transport and special access services other than channel terminations between LEC end offices and customer premises, determined as specified in Section 69.725 of this subpart, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center.

§ 69.711 Channel terminations between LEC end offices and customer premises.

(a) *Scope.* This paragraph governs requests for pricing flexibility with respect to channel terminations between LEC end offices and customer premises.

(b) *Phase I Triggers.* To obtain Phase I pricing flexibility, as specified in Section 69.727(a) of this subpart, for channel terminations between LEC end offices and customer premises, a price cap LEC must show that, in the relevant area as described in

Price cap LECs filing petitions for pricing flexibility shall follow the procedures set forth in Section 1.774 of this chapter.

§ 69.707 Geographic scope of petition.

(a) *MSA.*

(1) A price cap LEC filing a petition for pricing flexibility in an MSA shall include data sufficient to support its petition, as set forth in this subpart, disaggregated by MSA.

(2) A price cap LEC may request pricing flexibility for two or more MSAs in a single petition, provided that it submits supporting data disaggregated by MSA.

(b) *Non-MSA.*

(1) A price cap LEC will receive pricing flexibility with respect to those parts of a study area that fall outside of any MSA, provided that it provides data sufficient to support a finding that competitors have collocated in a number of wire centers in that non-MSA region sufficient to satisfy the criteria for the pricing flexibility sought in the petition, as set forth in this subpart, if the region at issue were an MSA.

(2) The petitioner may aggregate data for all the non-MSA regions in a single study area for which it requests pricing flexibility in its petition.

(3) A petitioner may request pricing flexibility in the non-MSA regions of two or more of its study areas, provided that it submits supporting data disaggregated by study area.

§ 69.709 Dedicated transport and special access services other than channel terminations between LEC end offices and customer premises.

(a) *Scope.* This paragraph governs requests for pricing flexibility with respect to the following services:

(1) Entrance facilities, as described in Section 69.110 of this part.

(2) Transport of traffic over dedicated transport facilities between the serving wire center and the tandem switching office, as described in Section 69.111(a)(2)(iii) of this part.

(3) Direct-trunked transport, as described in Section 69.112 of this part.

(b) *Phase I Triggers.*

(1) To obtain Phase I pricing flexibility, as specified in Section 69.727(a) of this subpart, for the services identified in paragraph (a) of this section, a price cap LEC must provide convincing evidence that, in the relevant area as described in Section 69.707 of this subpart, its unaffiliated competitors, in aggregate, offer service to at least 15 percent of the price cap LEC's customer locations.

(2) For purposes of the showing required by paragraph (b)(1), the price cap LEC may not rely on service the competitors provide solely by reselling the price cap LEC's services, or provide through unbundled network elements as defined in Section 51.5 of this chapter, except that the price cap LEC may rely on service the competitors provide through the use of the price cap LEC's unbundled loops.

(c) [Reserved.]

§§ 69.714-69.724 [Reserved.]

§ 69.725 Attribution of revenues to particular wire centers.

If a price cap LEC elects to show, in accordance with Sections 69.709 or 69.711 of this subpart, that competitors have collocated in wire centers accounting for a certain percentage of revenues from the services at issue, the LEC must make the following revenue allocations:

(a) For entrance facilities and channel terminations between an IXC POP and a serving wire center, the petitioner shall attribute all the revenue to the serving wire center.

(b) For channel terminations between a LEC end office and a customer premises, the petitioner shall attribute all the revenue to the LEC end office.

(c) For any dedicated service routed through multiple wire centers, the petitioner shall attribute 50 percent of the revenue to the wire center at each end of the transmission path, unless the petitioner can make a convincing case in its petition that some other allocation would be more representative of the extent of competitive entry in the MSA or the non-MSA parts of the study area at issue.

§ 69.727 Regulatory relief.

(a) *Phase I Relief.* Upon satisfaction of the Phase I triggers specified in Sections 69.709(b), 69.711(b), or 69.713(b) of this subpart for an MSA or the non-MSA

Section 69.707 of this subpart, competitors unaffiliated with the price cap LEC have collocated:

(1) in 50 percent of the petitioner's wire centers, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center; or

(2) in wire centers accounting for 65 percent of the petitioner's revenues from channel terminations between LEC end offices and customer premises, determined as specified in Section 69.725 of this subpart, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center.

(c) *Phase II Triggers.* To obtain Phase II pricing flexibility, as specified in Section 69.727(b) of this subpart, for channel terminations between LEC end offices and customer premises, a price cap LEC must show that, in the relevant area as described in Section 69.707 of this subpart, competitors unaffiliated with the price cap LEC have collocated:

(1) in 65 percent of the petitioner's wire centers, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center; or

(2) in wire centers accounting for 85 percent of the petitioner's revenues from channel terminations between LEC end offices and customer premises, determined as specified in Section 69.725 of this subpart, and that at least one such collocator in each wire center is using transport facilities owned by a transport provider other than the price cap LEC to transport traffic from that wire center.

§ 69.713 Common line, traffic-sensitive, and tandem-switched transport services.

(a) *Scope.* This paragraph governs requests for pricing flexibility with respect to the following services:

(1) Common line services, as described in Sections 69.152, 69.153, and 69.154 of this part.

(2) Services in the traffic-sensitive basket, as described in Section 61.42(d)(2) of this chapter.

(3) The traffic-sensitive components of tandem-switched transport services, as described in Sections 69.111(a)(2)(i) and (ii) of this part.

for any new service that falls within the definition of a "channel termination between a LEC end office and a customer premises" as specified in Section 69.703(a)(2) of this subpart.

§ 69.731 Low-end adjustment mechanism.

(a) Any price cap LEC obtaining Phase I or Phase II pricing flexibility for any service in any MSA in its service region, or for the non-MSA portion of any study area in its service region, shall be prohibited from making any low-end adjustment pursuant to Section 61.45(d)(1)(vii) of this chapter in all or part of its service region.

(b) Any affiliate of any price cap LEC obtaining Phase I or Phase II pricing flexibility for any service in any MSA in its service region shall be prohibited from making any low-end adjustment pursuant to Section 61.45(d)(1)(vii) of this chapter in all or part of its service region.

parts of a study area, a price cap LEC will be granted the following regulatory relief in that area for the services specified in Sections 69.709(a), 69.711(a), or 69.713(a) of this subpart, respectively:

- (1) Volume and term discounts;
- (2) Contract tariff authority, provided that
 - (i) Contract tariff services are made generally available to all similarly situated customers; and
 - (ii) The price cap LEC excludes all contract tariff offerings from price cap regulation pursuant to Section 61.42(f)(1) of this chapter.
 - (iii) Before the price cap LEC provides a contract tariffed service, under Sections 69.727(a) of this subpart, to one of its long-distance affiliates, as described in Section 272 of the Communications Act of 1934, as amended, or Section 64.1903 of this chapter, the price cap LEC certifies to the Commission that it provides service pursuant to that contract tariff to an unaffiliated customer.

(b) *Phase II Relief.* Upon satisfaction of the Phase II triggers specified in Sections 69.709(c) or 69.711(c) of this subpart for an MSA or the non-MSA parts of a study area, a price cap LEC will be granted the following regulatory relief in that area for the services specified in Sections 69.709(a) or 69.711(a) of this subpart, respectively:

- (1) Elimination of the rate structure requirements in Part 69, Subpart B, of this chapter;
- (2) Elimination of price cap regulation; and
- (3) Filing of tariff revisions on one day's notice, notwithstanding the notice requirements for tariff filings specified in Section 61.58 of this chapter.

§ 69.729 New services.

(a) Except for new services subject to paragraph (b) of this section, a price cap LEC may obtain pricing flexibility for a new service that has not been incorporated into a price cap basket by demonstrating in its pricing flexibility petition that the new service would be properly incorporated into one of the price cap baskets and service bands for which the price cap LEC seeks pricing flexibility.

(b) Notwithstanding paragraph (a) of this section, a price cap LEC must demonstrate satisfaction of the triggers in Section 69.711(b) of this subpart to be granted pricing flexibility

**SEPARATE STATEMENT OF
COMMISSIONER HAROLD FURCHTGOTT-ROTH
APPROVING IN PART, CONCURRING IN PART,
AND DISSENTING IN PART**

Re: Access Charge Reform, CC Docket No. 96-262, Price Cap Performance Review for Local Exchange Carriers, CC Docket No. 94-1, Interexchange Carrier Purchases of Switched Access Services Offered by Competitive Local Exchange Carriers, CCB/CPD File No. 98-63, Petition of U S West Communications, Inc. for Forbearance from Regulation as a Dominant Carrier in the Phoenix, Arizona MSA, CC Docket No. 98-157.

It is very difficult to rationalize any occasion where the government stands between consumers and lower prices. Thus I support much of the regulatory relief contemplated in this item. As a result of the relief made possible by today's Order, the Commission will begin to release its regulatory hold on certain carriers operating in competitive markets. I respectfully dissent from portions of this item posing the mere suggestion of regulating competitive carriers in these same markets.

I fully support the immediate regulatory relief granted in this item. In my view, any reduction of unnecessary regulatory burdens is beneficial. The Commission should streamline its procedures wherever possible to lessen the administrative burden imposed by regulation.

Today's Order establishes triggering mechanisms that will open the door to a degree of regulatory relief that will, in turn, provide lower prices to consumers. While I support the relief made possible by these triggering mechanisms, I remain concerned that these tests may be more cumbersome than necessary. Although the goal of identifying competitive conditions in order to provide regulatory relief is commendable, I would have preferred a simpler approach. I am particularly concerned that the "trigger" for providing relief to providers of switched access services could prove extraordinarily cumbersome in its execution. Notwithstanding these concerns, however, I wholeheartedly support the idea of letting prices fall as a result of competitive forces, and accordingly, I concur with this section of the Order to the extent it makes this regulatory relief possible.

Although the Notice of Proposed Rulemaking details additional *deregulatory* proposals that I can support, I object to the mere suggestion of adopting *new* regulatory approaches to CLEC terminating access. On numerous occasions, I have made clear my opposition to any suggestion that the Commission may return, despite the presence of competition, to old habits of regulating carriers.¹ Any such proposal has a chilling effect on industry participants. Moreover, the mere suggestion of regulating a competitive market is antithetical to the Telecommunications Act of 1996. I also note that I am troubled by the suggestion to deaverage the Subscriber Line Charge and the Presubscribed Interexchange Carrier Charge based on geographic zones within a state, as I am not sure that it is appropriate for the federal government to set different rate elements for similar customers within a state.

¹ See, e.g., Dissenting Statement of Commissioner Harold Furchtgott-Roth, Low-Volume Long-Distance Users, CC Docket 99-249.

**Separate Statement
of
Commissioner Susan Ness**

Re: Access Charge Reform (CC Docket No. 96-262); Price Cap Performance Review for Local Exchange Carriers (CC Docket No. 94-1).

During the past decade, exchange access competition has increased significantly. I am optimistic that the investment and infrastructure deployment that has occurred demonstrates a strong and irreversible trend toward a multiplicity of carriers in the marketplace. We must ensure that our regulations do not impede this progress.

Part of the calculus is to determine not just when to regulate, but when to deregulate. Today we take a measured step forward. By first providing incumbents with some downward pricing flexibility for high-capacity services, we allow them to respond to the new competitive marketplace for these services. Consumers should also benefit from lower prices. And, by using the presence of collocation in a market as the trigger for regulatory relief, incumbents should have additional incentives to work more cooperatively with new entrants - ironing out collocation wrinkles that should have disappeared long ago.

Although I am enthusiastic about this step forward, I cast my vote with guarded optimism. I intend to watch marketplace reactions very carefully. I prefer to act incrementally, so that we can ensure that no harm to competition occurs. If the framework we set out today is successful, I expect to take more steps in this direction as we continue down a path toward deregulation.
